10 Copy-Paste Business Prompts

Two prompts each for marketing, sales, admin, content and research, ready to paste into Claude.

Version 1.0 · Written November 2026

How to use: copy a prompt, replace every [BRACKET], and paste it into a new Claude chat. For better results, start the chat with two or three sentences about your business (what you sell, who to, your tone). Each prompt is tagged with the AI with Harry kit it comes from.

Ground rules: check facts and numbers before you publish, never paste passwords, card numbers or client secrets into a chat, and follow privacy and email rules (GDPR, CAN-SPAM) when contacting people.

> **Things change fast.** Claude's features and menus change. If a prompt mentions a feature you can't find, it still works as plain text; just paste in the information yourself.
